SUMMARY

I am a highly motivated, results-oriented individual looking for a web development position that will give me the opportunity for career and personal growth.

Experience

**March 2012
December, 2014**

**The UPS Store
*Manager***

- Worked at two “The UPS Store’s” in Alpharetta, Georgia
- Ensured that UPS standards were being met by all staff
- Interacted with customers to ensure that their needs were being served in regards to all profit centers provided by The UPS Store
- Processed transactions through the POS
- Balanced cash at the end of the day

**January 2010
February 2012**

**The Wooden Nickel
*Line Cook/Assistant Kitchen Manager***

- Managed kitchen inventory levels
- Ensured that kitchen procedures and standards were being followed

**October 2008
November 2009**

**Chick-Fil-A
*Team Leader***

- Ensured that all Chick-Fil-A procedures and standards were being followed
- Balanced cash drawers at the end of each shift
- Interacted with customers on a daily basis to ensure that their expectations were being met with regard to food quality and service
- Supervised team members to ensure that all required shift tasks were completed

**December 2003
January 2008**

**The UPS Store
*Sales Associate***

- Worked at The UPS Store in Flowery Branch, Georgia each holiday season and some summer seasons
- Ensured that all UPS standards were being met with regard to customer service, packaging and shipping
- Interacted with the customers to ensure that their needs were being served
- Processed transactions through the POS
- Balanced cash at the end of the day

Summer 2006

**On The Level Masonry
*Laborer***

- Performed stone mason tasks as directed by the owner of the company

2002 to 2005

Operated a power washing business

- Power washed driveways, sidewalks, decks, etc. in my neighborhood
- Made up fliers and distributed them to solicit business

Education

Chattahoochee High School
Graduated 2005
Hope Scholar

Valdosta State University
08/15/05 - 2010
Continuing to take classes on a part time basis towards a Bachelor of Science Degree

The Iron Yard – Atlanta, Georgia
January, 2015 – March, 2015
Front-End Engineering

- This was an immersive 3 month certificate program in which I learned HTML, CSS, JavaScript and many of it's libraries, and basic server-side technologies.
